"I was glowing for days afterwards, and still am. I'll definitely be back, just before my wedding"

INSIDE MISS SANDI'S BATHROOM

[Che Skincare's](#) mission is to provide "clinically qualified, medically accredited and quality non-surgical aesthetic products and procedures." Their range of 'Clinic Aesthetic' medical skin care products is 100% natural."

Miss Sandi likes the Che Deep Cleanser, and says that a little bit goes a long way. It's deeply cleansing and removes all traces of grime, to leave her skin feeling squeaky clean without feeling too dry afterwards.

The Che Vitamin C Serum is deeply hydrating and chock full of antioxidants. It feels great on the skin at night, and delivers good results – clear, hydrated skin. She also loves the anti-aging aspect of this serum.

Miss Sandi thinks the Alpha H Micro Cleanse is an excellent product. It is quite strong, but delivers good results, leaving her skin super smooth.

She is using the Alpha-H Age Delay Oil every second night for extra hydration, by putting a couple of drops into her night moisturiser. It has softened her skin, and her face is definitely more hydrated after using it.

Publication: Onya Magazine Online
